EXPERIENCE

Hunt Digital Media

Feb 2026 – Present

SDE Intern (Remote)

- Engineered and optimized core **CRM systems** processing **high-volume Meta Ads leads**, enabling reliable lead capture, distribution, and tracking across business workflows.
- Optimized backend architecture through **Go-based services**, increasing platform **scalability** from **~1K to 20K+ leads per day** while improving system stability.
- Built **secure authentication** and **automation solutions** using Google OAuth, OTP verification, and Selenium-based workflows, reducing manual effort and enhancing user experience.
- Owned features across the product lifecycle, from requirement analysis and prioritization to development, QA, and deployment; gaining hands-on experience in **product ownership** and **cross-functional collaboration**.

PROJECTS

Biblios: AI-Powered Book Insight App

Mar 2026 – Apr 2026

Tech Stack: Django REST Framework, Next.js, ChromaDB, TinyLlama, SQLite

- Built a **RAG-powered** book discovery platform supporting AI-generated insights and natural-language question answering.
- Scraped and processed 1,000+ book records to generate summaries, sentiment analysis, and genre-based recommendations.
- Implemented **vector search** using ChromaDB and TinyLlama to deliver context-aware responses across the book collection.

Orbit Social App

Jan 2026 – Feb 2026

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, Mongoose

- Built a MERN-stack social media application with **JWT authentication**, enabling users to create posts, upload images, and interact through likes and comments.
- Designed RESTful APIs and MongoDB schemas to support social interactions, content feeds, and **secure user sessions**.
- Implemented **responsive client-side interfaces** with React, ensuring a seamless experience across desktop and mobile devices.

PosturePro

July 2025 – Sept 2025

Tech Stack: IoT, Embedded Systems, Sensor Integration, Arduino

- Built an IoT posture-monitoring system integrating **real-time sensor data** and posture analysis to detect incorrect sitting habits and provide corrective feedback.
- Presented architectural schemas and project viability metrics at **TSEC 2025 (IIM Calcutta)** and the **MSME Summit (NIT Durgapur)**.
